PoolCop

Always. Better. Blue.

TRANSFORMING
YOUR POOL EXPERIENCE

ENJOY YOUR POOL,
LEAVE THE REST TO POOLCOP

A swimming pool should always be
a source of fun and serenity.
PoolCop aims to ensure that this condition is met.

You want your new swimming pool to run easily, efficiently and economically from day one?

Install a PoolCop right from the start!

You want your existing pool to be easier to maintain and reduce the overall running costs?

Install a PoolCop right away!

PoolCop

FULL MANAGEMENT

One single control unit for total pool management.

Acting like an orchestra conductor, it will analyse and link all the parameters in a coherent way, feed back information in real time and act to prevent or correct risk situations.

MAKE LIFE EASIER

Constant manual adjustments to products, water level, pump and filter are a thing of the past.

PoolCop takes care of everything and leaves nothing to chance. It takes complete control so you can enjoy your pool to the full without worrying about maintenance.
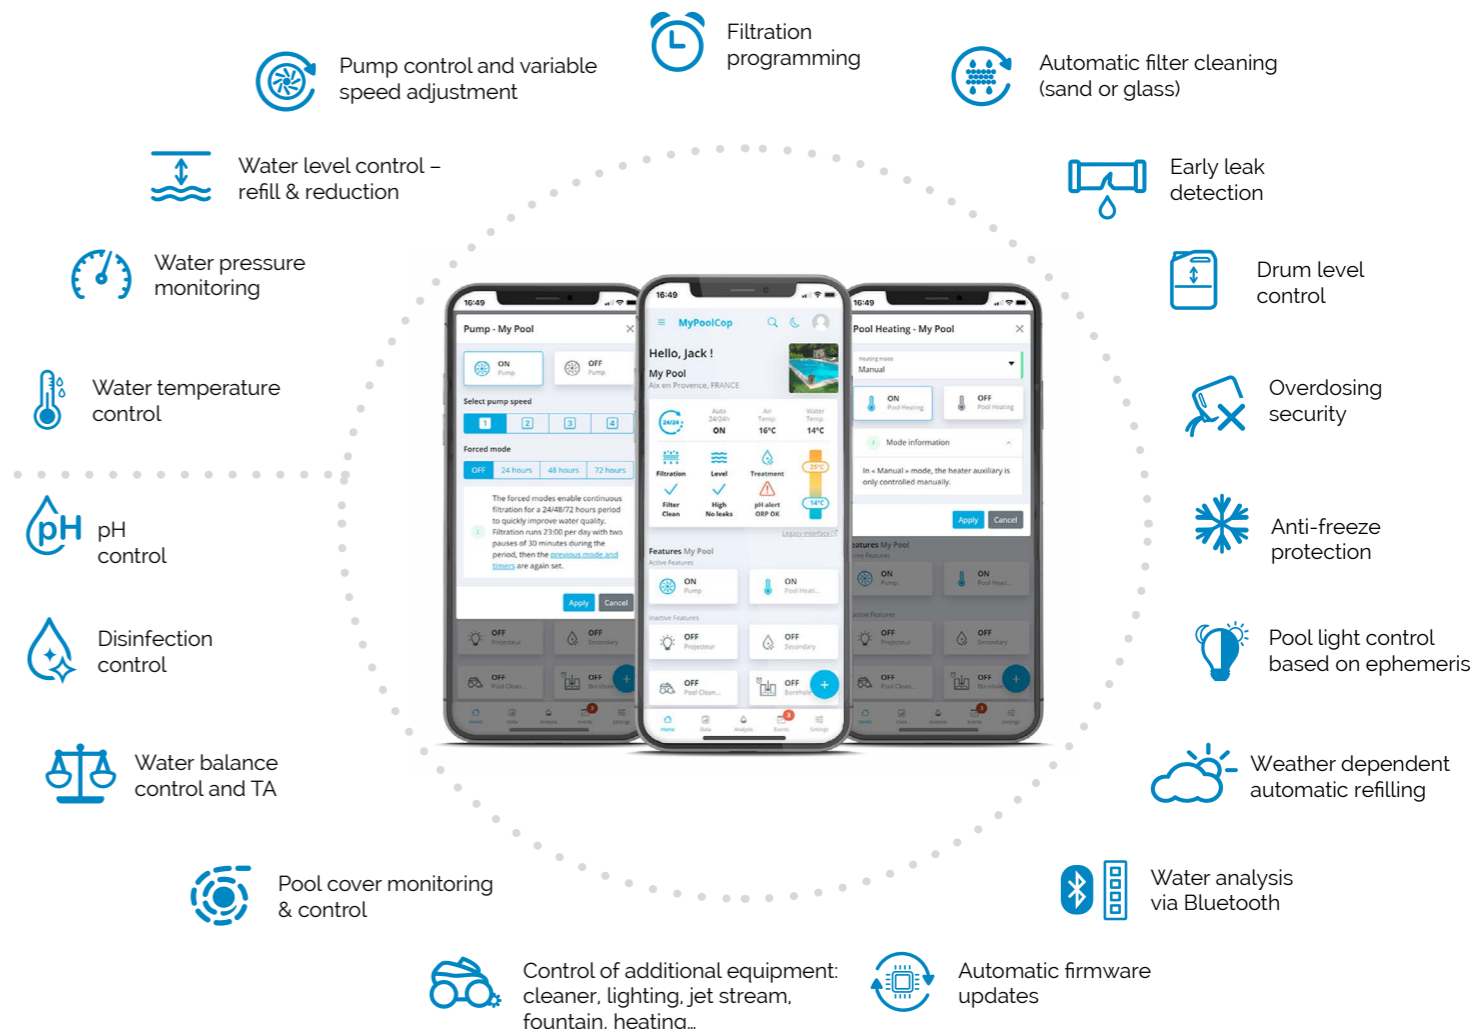

SUSTAINABILITY

In the fight against programmed obsolescence, each PoolCop is designed to last over time. It is built to be serviced or repaired, not replaced.

Automatic updates ensure that it will always work with the latest technological improvements, whatever the age of the PoolCop.

SAVE RESOURCES

With its sustainable, eco-friendly approach to pool maintenance, it's the key ally in becoming a responsible pool owner.

Instantaneaous settings adjustments and intelligent features reduce water, energy and chemical consumption to the bare minimum.

COMPLETE MANAGEMENT
With real-time remote control and visibility

Pump control and variable speed adjustment

Filtration programming

Automatic filter cleaning (sand or glass)

Water level control – refill & reduction

Early leak detection

Water pressure monitoring

Drum level control

Water temperature control

Overdosing security

pH control

Anti-freeze protection

Disinfection control

Pool light control based on ephemeris

Water balance control and TA

Weather dependent automatic refilling

Pool cover monitoring & control

Water analysis via Bluetooth

Control of additional equipment: cleaner, lighting, jet stream, fountain, heating...

Automatic firmware updates

Give your pool professional complete management access, while maintaing total visibility and control of your equipment.

Via PoolCop you can manage your additional outdoor equipment (garden lighting, watering, etc.) from the same interface.

ONE CONCEPT TWO SOLUTIONS

PoolCop
Evolution

PoolCop
Genesis

- Open system, compatible with all third party equipment, and an automatic 6 way valve included
- Manages all pools with flow rates up to 30 m³/h
- Compatible with all side mounted granular filters (sand or glass)
- Automatic filter cleaning
- Display and control on the unit and via the dedicated interface

PRODUCT ADVANTAGES

ULTRA COMPATIBLE

Thanks to a completely open system PoolCop communicates with, and operates, all pool equipment, no matter what brand is installed.

ADVANCED TECHNOLOGY

Using advanced sensors and intelligent algorithms, PoolCop monitors what's happening in real time and analyses the information with previously recorded data.

MACHINE LEARNING

With its unique machine learning capability, PoolCop understands and predicts pool behaviour and calculates the best maintenance routine accordingly.
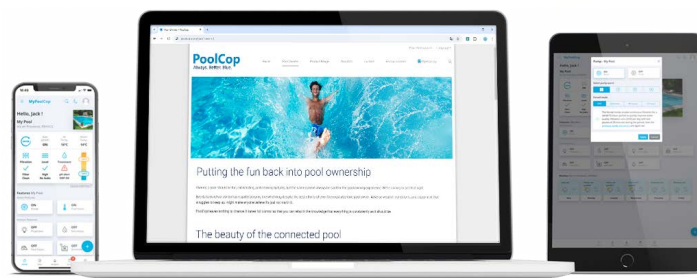

FAULT DETECTION

PoolCops technology and learning capacity enable it to detect and alert you to all types of anomalies requiring special attention and rapid intervention.
