

PoolCop

Always. Better. Blue.

THE COMPLETE SOLUTION
FOR QUALITY CUSTOMER SERVICE

YOUR ALLY

TO MANAGE YOUR POOLS EFFICIENTLY AND PROACTIVELY

If you're looking to offer a premium pool service, modernize your approach, and guarantee excellent results, this technology-driven solution will ensure you stand out from competitors while transforming the pool experience for your clients.

ONE CONTROL UNIT FOR COMPLETE POOL MANAGEMENT

Based on the belief that one remote control simplifies the tasks for all users, all pool equipment and features should be controlled via one device and interface. PoolCOP is a totally open system, fully compatible with 3rd party equipment.

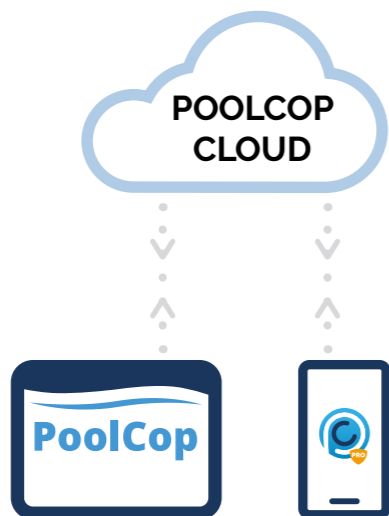

Whether it's filtration, water temperature, lighting, water level, water balance or disinfection, all functions are controlled, managed and optimised.

POOLCOP THEN GOES BEYOND SIMPLY CONTROLLING EQUIPMENT

Using cutting-edge technologies and the Big Data Cloud platform PoolCOP brings an innovative solution to swimming pool maintenance and management.

Combining advanced sensors and smart algorithms, PoolCOP monitors in real-time, and analyzes the information collected and logged. Equipped with a unique machine-learning capability, PoolCOP progressively understands and predicts each individual pool's behaviour, calculating and adjusting the best care routine accordingly.

Instantaneous adjustments and intelligent features keep water consumption, energy and chemical products to a strict minimum, prolonging the lifespan of equipment, and transforming pool maintenance from reactive to proactive.

PoolCOP is the solution for any installation, be it a new pool, a renovation, or a simple upgrade, and provides you, the pool professional, the valuable information you need to do your job!

INCORPORATED FEATURES

Standard Features

- Fully open system
- Monitoring and control via apps and cloud interface
- Pool portfolio remote management
- Unlimited water volume (Genesis)
- Flow rate up to 30 m³/h (Evolution)
- Integrated RJ45 and Modbus communications

Key Functionalities

- Filtration programming
- Pump control and variable speed adjustment
- Automatic filter cleaning
- Water level control - refill and reduction
- Water temperature control
- Water pressure monitoring
- Pool cover monitoring and control
- Control of additional equipment: cleaner, lighting, jet stream, fountain, heating...
- Antifreeze protection

Water Treatment

- Water balance control and TA
- pH control
- Disinfection control
- Combined sensor for pH and ORP with floating earth technology
- Overdosing security
- Drum level control

Smart Features

- Early leak detection
- Pool light control based on ephemeris
- Weather dependent automatic refilling
- Water analysis via Bluetooth
- Smart floating setpoint
- Remote sensor calibration

Integrated Technology

- Smart algorithms and machine learning technology
- Cloud AI technology
- Automatic firmware updates

WORK SMART

CONFIGURE EACH POOL TO FUNCTION AT ITS BEST

There is no one-size-fits-all to pool management. Each pool, and each installation, is unique, and over time factors change. Precise configurations allow PoolCop's technology to calculate and advise on the best maintenance routine accordingly.

REMOTELY MONITOR YOUR POOL PORTFOLIO

The dedicated PoolCop app gives you direct visibility of all your customers' pools on any numerical device. You can monitor and control from a distance, and decide if and when you need to arrive on site for specific maintenance or verifications.

IMMEDIATE ALERTS FOR A TIMELY RESPONSE

PoolCop monitors continuously, storing and analysing the data. At the sign of any anomaly it sends alerts via the PoolCop interface, enabling you to address problems promptly and intelligently, before they escalate into time consuming and costly repairs.

PLAN SERVICE CALLS PROACTIVELY

With the information from PoolCop sends you arrive fully prepared for each maintenance visit, adjusting your planning if necessary, and before your client calls.

SAVE TIME AND EXPENSES ON UNNECESSARY TRAVEL

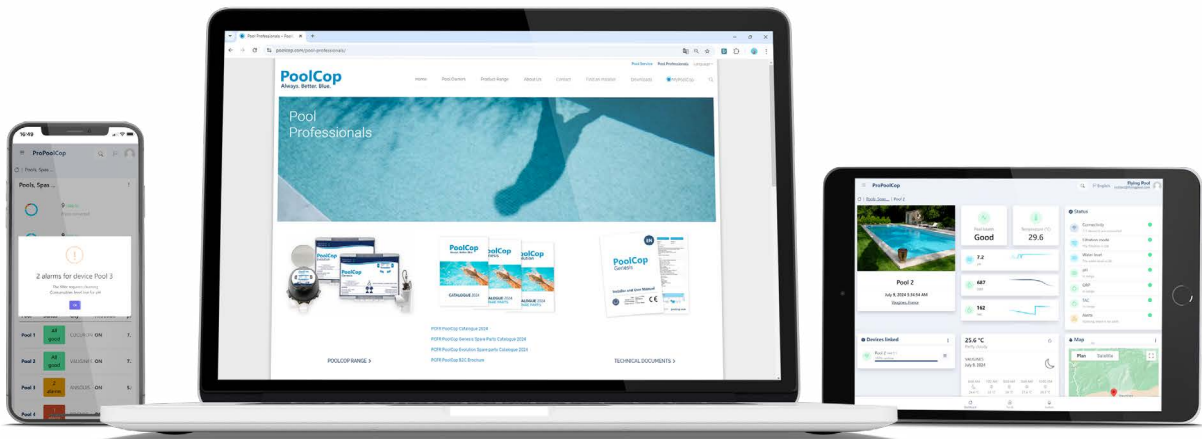

Thanks to the predictive information and intelligent planning, you save precious time and expenses on unnecessary travel and return visits, greatly improving your productivity.

KEEP YOUR CLIENTS CONTENTED AND LOYAL

In recommending PoolCop, you give your clients the solution they need to significantly reduce the running costs of their pool, as well as peace of mind that everything is properly monitored.
