PoolCop
XM8

EXTEND YOUR POOLCOP FOR A FULLY AUTOMATED POOL, AND MORE

Based on the belief that one remote control is enough for any pool, all pool equipment and features should be controlled via one device and interface.

For complete pool management, PoolCop XM8, with its eight additional auxiliary connections, instantly increases the number of relays and inputs, allowing PoolCop to manage a whole range of ancillary equipment.

Everything from pool cleaners to swim jets, fountains to irrigation systems, or simply heating and lighting, can be monitored and controlled directly via a PoolCop, with the addition of the XM8.

It is automatically detected, needing no complicated configuration, and relays the information of all additional features to the PoolCop interface.

✓ PRODUCT ADVANTAGES

- **8 control relays**
- **8 input channels**
- **Simple installation**
- **Automatically detected by PoolCop**
- **Direct communication with the PoolCop interface**

RELAY FEATURES		INPUT FEATURES	
Pool Light	Fountain	Anti-freeze Detection	Electrolysis Diagnosis
Pool Cleaner	Borehole	Disinfection Low Level	Pool Cover Detection
Pool Heating	Poolhouse	pH Low Level	External Pump Start
Disinfection	Garden Irrigation	Flow Switch	External Pump Stop
Rinse Valve	Waste Valve	Flooding Detection	Jet Stream Push Button
Residual Dosing	Pool Cover Motor		
Transfer Pump	Jetstream		
UV	External Warning		
Spa			

TECHNICAL SPECIFICATIONS

REFERENCE	AC6800-D
RELAYS (DRY CONTACT)	8
INPUTS (POTENTIAL FREE)	8
PACK CONTENTS	XM8 Module with cable
DIMENSIONS	140 x 170 x 95 mm - 0.8 Kg
GUARANTEE	24 months
CONTROL AND DISPLAY	Via PoolCop, web interfaces and PoolCop Cloud
POOLCOP FIRMWARE, MINIMUM REQUIRED	V33.0
COMMUNICATION WITH POOLCOP	Integrated I2C
POWER SUPPLY FROM POOLCOP	12VDC 300mA
PROTECTION	IP55
RELAY MAXIMUM VOLTAGE AND CURRENT	0-230VAC 6A
OPERATING TEMPERATURE	-3 to +45°C
COMPLIANCE, ACCREDITATION, CERTIFICATION	CE, UKCA, WEEE
INSTALLATION COMPATIBILITY	PoolCop Evolution, PoolCop Genesis, PoolCop Genesis Panel New construction, renovation, or upgrade Residential and commercial pools and spas
COMPATIBLE RELAY FEATURES	• Pool light • Pool cleaner • Pool heating • Disinfection • Rinse valve • Remnant • Transfer pump • UV • Spa
COMPATIBLE INPUT FEATURES	• Antifreese detection • Disinfection - low level • pH - low level • Pool cover • Jetstream push button • Electrolysis diagnosis
COMBINED FEATURES (using relay/s and input/s)	• JetStream • Pool cover (subject to local legislation)
